DATE: 22.05.2005

**NOTIFICATION**

Sub: The Right to Information Bill -2005 (22 OF 2005)  
Implementation Reg.  
Ref: Lr.No.DPAR/136/RTI/2005 dated 08.09.2005  
Of Addl.Chief Secretary, Vidhana Soudha, B'lore

**Preamble**

The Karnataka Institute of Leather Technology is an autonomous registered society promoted by the Government of Karnataka is offering 3 ½ years Diploma in Leather Technology and also imparting training in the manufacturing process of leather garments / leather goods / footwear / footwear designing / leather tanning, to develop human resources in the field of leather technology including design development and research with latest technology using CAD. The institute functions as per the directions of the Governing Council under the Chairmanship of the Commissioner for Industrial Development & the Director of Industries & Commerce.

The Institute has taken steps for product design development, cost comparison, economisation on raw materials etc., New designs have been developed along with the physical samples. The Institute is regularly taking the product development studies at least one per month. So far 42 designs have been developed under this programme up to end of August, 2005. The Institute has taken steps for execution of consignment orders on the need basis as per the designs of the customers. Presently the shoe CAD has been made functional and is being used for development of new designs of shoes. The Institute has future plans to incorporate CAD for Leather Garments and Leather Goods.

The Proposal for Project - **Export Facilitation Centre for Leather Technology** under ASIDE Scheme, is under preparation and the Institute has proposed certain facilities under the Project which will be in the form of critical Infrastructure and will be used for skill up-gradation of manpower requirement of the Export Leather Industries comprising of Footwear Manufacturing, Leather Goods Manufacturing and Leather

Garments Manufacturing and also the development of Managerial skill of the leather industry. Facilities created will also be used as common facilities/incubation for the export leather industries.
